ATO AWARDED FIRST PLACE IN XMAS CONTEST

Members of the ATO fraternity fashioned a miniature church in front of their fraternity house on the Gettysburg College campus, inserted stained glass windows, lighted the interior then played Christmas music to win first place in the annual Christmas decoration Friday evening. The six judges were almost unanimous in their choice.

The Phi Delta Theta fraternity was a close second with a unique presentation of the Christmas theme. They displayed two huge sheets of music, one titled "Silent Night" and the other "Away in the Manger." There is musical accompaniment with the display.

The Sigma Nu and Phi Gamma Delta fraternities tied for honorable mention. Only one honorable mention was scheduled to be chosen but the judges felt that both were equally deserving of the honor.

The Sigma Nu also presented a church scene with stained glass windows topped by two large gold bells which swung from atop the fraternity house and peered forth tones in tune with Christmas music that also accompanied the display.

MANY ATTRACTIVE SCENES

The Phi Gams built a miniature house with a cut-away front. The interior was a series of revolving scenes which were swung into view to the accompaniment of a narration of the Christmas story. The closing showed Santa and his reindeer racing across the sky in the rear of the house. A fraternity pledge, anchored in the crotch of a nearby tree, manipulated a wire that drew the Santa piece across the sky.

There were many other attractive pieces and some which showed little or no imagination. The judges spent little time on several displays while devoting return visits to the more attractive scenes.

The judges were: Dean Ramsay Jones, Dr. Harold R. Dunkelberger, Colonel John Eddy, Dr. Calvin Schildknecht, Atty. John A. McPhail and Paul L. Roy.

UPPER ADAMS WILL ADD SIX SCHOOL ROOMS

The Upper Adams school system is planning the addition of four rooms to the Biglerville Elementary School and two rooms to the Bendersville Elementary School with a completion date tentatively set for 1962.

Approval of the plans has been given by the county board of school directors. Still pending are approvals by the state Department of Health and Sanitation and others.

Two years ago the Upper Adams board made application for state aid in constructing the proposed additions to the elementary schools and Business Manager David Houck said that approval is now forthcoming.

NEW HS UNDERWAY

How quickly the district will be able to move ahead on the proposed addition of six rooms to the elementary system depends to a large extent on how quickly approvals of plans and finances come about.

It is hoped, Houck said, "that work on the new construction can begin late in 1961 so the rooms will be usable in 1962."

Meantime work is progressing on the new high school construction at Biglerville. Section A, first of the three new sections to be built, is about 55 per cent complete. Section B, the proposed auditorium, is "moving along" but it is doubted that it will be completed in time for commencement exercises next spring. Section C, which will be constructed after Section A is done so that students can move there to permit part of the old high school to be removed, "can't show much progress until the youngsters are in the new Section A," Houck said.

Cuban Demonstrators Defy Castro And Reds; Trouble Brews With Labor, Church

By RICHARD VALERIANI

HAVANA (AP)—Trouble piled up today for Prime Minister Fidel Castro on the labor, church and military fronts with the issue of Communist infiltration of his regime playing a central role.

Shouts of "Cuba yes, Russia no" came from demonstrators in front of the presidential palace—and they got away with it.

Anti-Communist leaders of the Electrical Workers Union took a bold and daring stand by boycotting a Communist-managed union general assembly, which voted to demand their ouster.

In Santa Clara five Cuban men were sentenced to death by a firing squad for trying to hijack a Cuban airliner in flight over Cienfuegos Thursday night. They were thwarted when the pilot crash-landed. The Christmas season always brings nostalgic memories of bygone days... days that bristled with heavy snows, biting cold, sleigh rides, bob sleds, tobogganings, horse and cutter races, snowballing and the traditional visits with relatives.

From the first fall of snow, invariably in October, the winter season was in full blast and the two highlights of the season were always Christmas and New Year's.

The few days before Christmas in our house were filled with happy thoughts of Christmas gifts, of giving, "catching rides" on big double sleds used by farmers to bring produce into town. We rode the runners, that is, we stood on the runners as the big sled ploughed through the snow, and sleigh bells jingled and drivers shouted "giddap" to his team of heaves.

From one end of the main street to the other, then back again we rode almost every Saturday and during Christmas vacations... many times drivers swished us off with a flash of a whip, but we managed to "snag" a ride on the next sled.

There were no highway crews to plow the snow off the streets or haul it away. When the snow fell it lay there, until the next snow fall which piled it higher until a thaw melted it down a bit... and so it went until late winter or very early spring when a warm sun turned the snow into freshets of water, snaking down the side of the streets.

But Christmas Eve and Christmas Day finally rolled around. After the customary family supper Christmas Eve, usually at 6 o'clock, the dishes

One Western official here said, "The pressure seems to be off for the moment."

The rebels had threatened to arrest all Europeans "and cut off some of the heads" of Belgian hostages if Lumumba was not set free by 3 p.m. Friday.

United Nations reports from the area said no whites had been arrested so far in Stanleyville itself. But an undetermined number of arrests was reported at Aru, a town on the borders of Oriental Province and Uganda.

FULBRIGHT MAY NOT BE GIVEN CABINET POST

By MARVIN L. ARROWSMITH
PALM BEACH, Fla. (AP) — President-elect John F. Kennedy's headquarters today held open the possibility of his picking Republican C. Douglas Dillon, now undersecretary of State, to be secretary of the Treasury.

"I can neither confirm nor deny that," said Pierre Salinger, Kennedy's press secretary, in response to questions about reports that the president-elect has decided on the 51-year-old Dillon for the Cabinet post.

Kennedy arrived from Washington Friday night with his wife, Jacqueline and their two-week-old son, John Fitzgerald Jr. The president-elect plans to spend the weekend at the Atlantic shore home of his parents, Mrs. Kennedy and their two children expect to stay on through the Christmas holidays.

FULBRIGHT MAY LOSE

There was no comment from Kennedy on the continuing welter of speculation about his choices for the seven posts in his Cabinet yet to be filled.

Salinger would say nothing about a report that Kennedy had eliminated Sen. J. William Fulbright (D-Ark.) from a list of possibilities for the post of secretary of State.

In New York Friday, the Rev. Dr. Wesley A. Hotchkiss, a Protestant leader in race relations and general secretary of the American Missionary Association, urged Kennedy to drop any consideration of naming Fulbright to that position.

The church official said Fulbright, chairman of the Senate foreign relations committee, has "a questionable record on segregation in the United States," and this makes him unsuitable for a foreign policy post.

WILL RESIGN SENATE SEATS

WASHINGTON (AP) — Sens. John F. Kennedy and Lyndon B. Johnson intend to resign from the Senate shortly after the Electoral College makes their election as president and vice president official on Dec. 19.

The resignations will open the way for the Democratic governors of Massachusetts and Texas to appoint two new senators.

Another appointment to the new Senate will be made by Wyoming's Democratic Gov. Joe Hickey. Republican Sen-elect Keith Thomson of Wyoming died Friday, apparently of a heart attack. Thomson, 41, was a member of the House.

Hickey does not have to appoint a Republican. The appointee will serve for two years until a successor is elected at a general election.

Johnson's decision to step out of office this month will clear the decks for Sen. Mike Mansfield of Montana to step into the Texan's shoes as majority leader of the Senate as soon as it convenes.

JOHNSTOWN, Pa. (AP) — Injuries suffered in a coal mine accident proved fatal to Melvin G. Shank, 55, of Bolivar, Westmoreland County, Friday night in Memorial Hospital.

The loading end of a mining machine fell on Shank and another worker, Eugene Little, 31, of Nanticoke, 1 in the Imperial Coal Corp.'s Diamond coal mine at Boltz, Indiana County on Thursday. Little was listed in fair condition at Memorial Hospital with a head injury.

Dentist Is Fined For Tax Evasion

PITTSBURGH (AP) — A New Castle dentist has been fined \$20,000 and sentenced to 30 days in jail for evading \$35,626 in income taxes in 1954 and 1955.

Dr. J. Edward Everett, 59, a dentist in New Castle since 1928, pleaded guilty to the charges Friday before Judge John W. McIlvaine of U.S. District Court.

Dr. Everett's unreported income consisted mostly of dividends from the sale of stock, an agent of the Department of Internal Revenue testified.

The dentist was charged with evading \$46,382 in taxes from 1954 to 1957, but when he agreed to plead guilty to the charges for 1954 and 1955, the other counts were dropped.

Judge McIlvaine first sentenced Dr. Everett to 45 days in jail, but later the sentence was changed to 30 days on a plea by defense attorney Leonard Boreman.

weir washed and each member took turns cleaning up for midnight church services. Promptly at 11:15 the entire family trudged off the church, crunching through unshoveled walks and bending into the cold wind into a warm church. At 1:30 a.m. the service was over and the family trudged back home where hot chocolate, or ginger ale and cookies were served. Then off to bed until no later than 8 o'clock Christmas morning when breakfast was ready.

Around a tree decorated with lighted candles, strings of popcorn, tinsel and colored pieces the Christmas gifts were distributed and unwrapped . . . then came the regular Christmas morning church services again to which the entire family trudged once more.

Christmas dinner was a festive occasion. A golden brown turkey graced the center of the table and the side dishes were many and plentiful . . . visitors came and went throughout the afternoon . . . there were impromptu songfests . . . there were dishes of candy and a wide variety of nuts in every room, and usually one large bowl of fruit.

If there was a close second to Christmas in our house it was New Year's Day. What a gala occasion it was! Especially for the kids, although the adults eagerly awaited the occasion.

The family again trudged to church services, usually at 10 a.m. The youngest were bundled into a sled, handmade by the head of the house, with strong runners and a huge box on top. This was packed with heavy blankets and three or four of the youngsters were plopped in with only their red faces visible. After services the family walked from one relative or friend's home to another, where wine and cookies were served the adults and ginger ale or chocolate again served the kids.

But the last part of call was grandmother's. Here was a day of days. The big, roomy house was filled with children and grandchildren. Mistletoe was hung from kerosene-fueled lamps which hung from the center of the ceiling and there was high glee when one of the men caught one of the women underneath. The kids didn't go for that.

After another hearty turkey dinner the men gathered in

A freak storm swept off Lake Michigan dumping 10 inches of snow at Valparaiso, Indiana and plunging temperatures to 10 degrees below zero.

On wind-whipped Lake Superior the freighter Starbelle called for help after heavy seas opened her hull and deck. The 259-foot grain freighter finally limped to safety under escort by a pair of Coast Guard cutters.

Warmer weather was also on tap for most of the Pacific Coast where the mercury plunged to the mid 20s Friday, threatening disaster to crops.

a corner of the largest living room (there were two in grandmother's house) and to the strumming of a guitarist they gave a concert that everybody thought was tops in any man's book of musical knowledge. There were outdoor thrills for the youngsters, but they all, at least most of them, poured back into the house for the "concert."

Supper was another delicious repast followed by more music, many visitors, bobbing for apples in a water-filled wooden tub until the hour of departure, 10 p.m., arrived. Then there was that long walk home . . . a matter of about 10 blocks through bitter cold and snow . . . but the lingering echoes of the singing and the memories of all the pleasant things that happened that day didn't make the trip half as long as you'd think . . . and everybody, except the kids who soon fell asleep on the sled, started thinking about next Christmas and New Years.

Cuban

(Continued From Page 1)

The ouster movement against Franginal was cloaked behind a CTC call for a union general assembly to condemn sabotage of Cuban Electric Company facilities, formerly U. S.-owned but now run by Castro's regime.

Roman Catholic officials continued their anti-Communist campaign with barbs at the government. Msgr. Eduardo Boza Masvidal, auxiliary bishop of Havana, accused Castro's regime of wanting to control the nation's educational system to spread "totalitarian ideology."

REJECTS CASTRO CHARGES

Writing in Quincena, bi-monthly Catholic magazine, the archbishop also flatly rejected Castro's charges that priests accepted bribes to preach against his regime.

On the military front, government-controlled radio stations reported the assassination of militia leader Norberto Morales in Rodas, a town in the inflamed Las Villas province.

Morales was the "chief of militia" in the Escambray Mountain town, around which anti-Castro insurgents are operating. Morales was killed by "unknown persons who were being pursued by militiamen and the army," the broadcast said.

Mrs. Ernest Overton, Mrs. John Bishop and Mrs. Harry E. Baker were the leaders present.

THEY CAME KNOCKING

TAMPA, Fla. (AP) — Police didn't know whether to look for a couple of would-be burglars or some very scared friends of S. W. Thomason, a retired night watchman.

Thomason told police he heard some pounding on his door early Friday and thought it was burglars. He fired through the door three times with a .22 caliber pistol and then peeked out to see two men running away.

Police figured Thomason probably forgot the sign on his door which reads: "I'm home. Knock loud."

LONDON (AP)—The Soviet Union's minister of agriculture got his knuckles rapped today because there are too many weeds in Russia's eastern farmland.

Moscow Radio accused the minister, Vladimir Matskevich, of inattention to the collective farms of Kazakhstan and Siberia where "crop rotation is not applied effectively . . . and weeds are not always effectively combatted."

Hang Holiday Greens Sunday
At "Y" Building: The meeting and recreation rooms, as well as the halls and stairways, of the Young Women's Christian association building, Lincoln Square were decorated for the Christmas season during the annual "Hanging of the Greens" program Sunday afternoon, beginning at 4 o'clock. The ceremony was open to the public.

16 Plows Are Clearing Roads Of Heavy Snow: Sixteen snowplows continued to patrol the county today after an all night session to keep the main highways open despite a snowfall of 5 1/2 to seven inches in depth. The deepest snow was reported from the Wenksville section.

Two graders and 14 trucks of the local state highway department section began their job of snow removal about 7:30 o'clock Sunday night. They continued on the job through-out the night and on into this afternoon.

To Evaluate Bigger High: Self-evaluation of Biglerville high school has been started under standards set by the Commission of Secondary Education, a national accrediting agency. The school has been on the approved list of high schools since 1928. The criteria for evaluation have been revised since the last evaluation.

Committees from the faculty were appointed by Supervising Principal L. V. Stock to evaluate each department. Each committee will report its findings to the faculty for discussion and to determine final ratings. The program will cover the entire school year and will provide preliminary materials for the committee which will visit the school at a later date.

Rec. Plans For 1951 Outlined Monday Night: Plans for the summer season of 1951 at the Recreation park, including a number of major improvements, were discussed by the board of directors of the Recreation Association at a meeting held Monday night in the offices of Swope, Brown and Swope. Vice President Glenn L. Bream presided in the absence of the president, Attorney Richard A. Brown.

Among the improvements suggested for next year by Donald Joseph, director, were tennis courts, midget baseball field, a picnic area, horse-shoe courts, outdoor theater or band shell, comfort station and possibly a new model airplane circle, if interest in this project continues.

Almost All Of North Korea Abandoned To Red Forces; Allies Back To 39th Line: Tokyo — Some 27 Chinese Communist Divisions — including 8,000 to 14,000 fierce Mongolian cavalrymen — today pressed menacing feelers toward South Korea after driving the bulk of the United Nations forces from the north.

Shaggy little Mongolians ponies and supply caravans of the medieval conqueror Genghis Khan used centuries ago gave bizarre but effective mobility to the vanguard of Red China's 1,000,000-man forces as it streamed unopposed over almost all of North Korea.

Xmas Bonuses Will Be Given By Local Firms: A number of Gettysburg firms already have, or will, before Christmas, distribute bonus payments or gifts to their employees. One of the first is the G. C. Murphy company. Employees of this store on Baltimore street participated Wednesday in the company's annual Christmas gift bonus.

C. O. Schweizer, manager of the store, said the bonus plan has been in effect for over 25 years, in addition to other benefits offered employees, which include sickness and retirement benefits and wage increment system based on service.

Many people could retire comfortably on what their experience has cost them.

Today's Talk

LETTING THINGS ALONE
Growth must not be tampered with too much.

If we get to thinking of our own selves too much, we get all bound up. We lose perspective and put a walled fence about our best aspirations. And the more we brood, the less use we are to ourselves or anybody else.

It is a good thing to let yourself alone. You are sure to work out all right if you do.

We are able to create only as we look out—and in—and up! If you planted a seed and then, just as it pushed its sprouts out of the ground, uncovered it to see what was going on, you would arrest its perfect growth. You would stunt its flowering. Development must come naturally.

The trapeze performer thinks nothing of himself as he hangs from his dangerous height and thrills his watchers. You see, he must center all that he is on the task he performs.

And we must follow the same procedure in all that we do. We must keep traveling away from in the things we do.

If your task is important, follow through with it until the end. If it isn't important, get one that is.

I know of a man who is always changing around everything that he does. He never seems satisfied. He is restless and wasteful. He is never content to let a good thing alone and pass on to the making of a new one. As a consequence, those who work for him get dissatisfied and he is all the time losing good workers. Many years ago he was a creator—to-day he is just a muddler.

Try to remember that YOU are what you DO!

Just Folks

THE EGOTIST
He rushed headlong unto his fate.
In spite of all my good advice;
But still I do not bear him hate,
He is the one to pay the price.
I understand he's doing well,
And now enjoys a needed rest,
But I believe, and still will tell,
My way of doing things was best.
I told him just the things to do,
But he's thick-headed as can be;
The benefit of all I knew
I gave him when he came to me.
But he, in spite of all I said
And everything I could suggest,
Spurned my advice and forged ahead,
Although I'm sure my way was best.

It puzzles me at times to see
The way some fellows gain success;
When they could get advice from me,
They much prefer to work by guess.
And what if they've succeeded now
And reached the mountain's golden crest?
I still am certain, anyhow,
My way of doing things was best.

SYNOPSIS: Michael has arrived in Santa Land in the midst of a crisis. A very old man named Costenbricker has put Santa's elves and reindeer to sleep. He refuses to awaken them until Santa produces a black pearl. Unless the elves are awakened, Santa will have no presents to deliver for Christmas.

Chapter Six

THE SLEEPING ELVES
"My elves never sleep at this time of year!" exclaimed Santa. "They have to work day and night or we'd never be ready for Christmas."

"They are asleep now," said Costenbricker, calmly tapping his parasol against his heel. "It's true," cried Mrs. Santa. "I've seen them myself! Oh, it's awful!"

She began to flap her apron more wildly than ever. "Then I'll wake them!" said Santa crossly. "This will never do." He rushed from the house with Michael and Mrs. Santa at his heels and Costenbricker shuffling along ten paces behind.

"I don't believe it, I don't believe it!" muttered Santa as he ran puffing through the snow drifts. But when he threw open the door of the workshop he saw that it was true: every little worker was fast asleep.

Michael stared at him in dismay. The doll makers lay limply among heaps of painted heads and rubber bodies looking themselves like dolls someone had forgotten to finish. The drum-makers slept curled in their drums. The fire-cracker experts made sputtering noises as they snored at their benches.

Muffin, the whistle-maker, lay in a corner and snorted as he breathed in and whistled as he breathed out. Toy wagons were loaded with napping elves and Gilbert, the still-maker, slept among the rafters where he'd dozed off while trying out some high stunts.

"Wake up, wake up!" cried Santa rushing from table to table. He pounded on the backs of the sleeping elves, shook their shoulders, shouted in their ears. Nothing would wake them.

Santa turned on Costenbricker. "What's the meaning of this? What have you done?" "He's cast a spell," moaned Mrs. Santa. "He came in here and said some magic words and they all fell asleep. Oh, what's to become of us?"

"Now, now," said Costenbricker, settling down with a sign into a half finished doll's chair. "There's nothing to get over-wrought about. When you have gotten me my black pearl I will say some more words and all your little workers will wake up and do even better work for having had such a good rest."

Gettysburg
Schools Report

This article deals with the science program in the elementary schools of Gettysburg. Science is a regularly scheduled part of the daily program in the elementary schools and the main purpose behind this program is to give the pupils the basic knowledge and concepts in science today.

Classrooms are supplied the necessary textbooks in Grades Two through Six in order to conduct regularly scheduled classes. In the First Grade rooms there are no textbooks for the children, but each teacher has a teacher's manual to motivate the interests of the first grader. In addition to these regular texts, a science library, found in each building, provides many books and pamphlets for additional use in the classroom.

Equipment for conducting experiments has greatly increased with the purchase of small science kits that contain many of the necessary articles needed in this phase of teaching. These articles, plus the use of additional equipment, give the classroom teacher many of the things needed to perform the necessary experiments.

In the Sixth Grade and special education classes there are television sets being used to enhance further the understanding and interests of the pupils in our schools. This television programming is done in cooperation with WGAL-TV. It is a 15-minute science program shown once a week on a subject of interest to elementary pupils.

Field trips are used whenever convenient and practical. It gives the children much more insight into many of the science units if

they are able to see first hand the things that are being discussed.

For the past two years, the National Defense Education Act has given much aid in securing materials and information for the public schools. In our own area, we have used this program to secure many needed articles for classroom use that would be difficult to get because of the expense involved. Under the NDEA we are reimbursed 50 per cent of the cost for any materials which are recommended and accepted by them. Our elementary schools are able to buy materials under the science and mathematics listings. Some of the articles that have been bought through the NDEA are such things as projectors, screens, filmstrips, books, experimental equipment and binoculars.

The NDEA also cooperates with our schools in making available classes on scientific subjects for our teachers. These classes are given, without cost, by experienced personnel. They are used mainly to inform and instruct in knowledge and procedures that can be used most effectively in the classroom situation.

Warriors Top West York 48-42 In Opener; Meet Suburban Here Tuesday

Gettysburg High School, with its stars performing an iron man stunt in playing the entire game, opened its basketball on the right foot by topping West York 48-42 Friday evening on the Bulldogs' floor before a large crowd.

A big factor in the ultimate outcome was the fine board work turned in by the entire Warrior squad who controlled both boards throughout.

The Warriors took a 10-9 lead in the first period on a pair of goals each by Mark Eckert and Don Waddell and one by Greg Maitland. Ranker collected six of the Bulldogs' points on two goals and a pair of fouls.

West York pulled ahead 22-20 at half time as they rammed through six goals and a foul, two of the twin-pointers coming from Bronley Walker. Greg Maitland kept Gettysburg in contention with three goals while Roger Eckert and Howie Miller tabbed one each.

GHS FORGES AHEAD

The Warrior offense began to click in the third quarter when Eckert and Eckert each landed a trio of shots while Miller, Maitland and Waddell each netted one. Going into the final period the Warriors were in front 39-34.

The Forney-men never relinquished their lead but were forced to bear down all the way as the scrappy Bulldogs kept in contention until the final moments.

Gettysburg's ironmen displayed a well-balanced attack with all scoring and Maitland topping the list with an even dozen points. Ranker was the only West York performer to reach double figures, netting 13.

JAYVEES BEATEN

West York's unbeaten junior varsity copied its third straight by blasting the Warrior scrubs in the preliminary 54-43 after racing to a 33-12 half time margin. Bobby Bigham led Coach Charley Eckhart's outfit with 16 points.

Gettysburg makes its home debut Tuesday evening when it entertains York Suburban (1-0).

Celtics Romp After Coach's Scolding

BOSTON (AP)—Coach Red Auerbach's fiery oration on "complacency at home" has taken effect on the Boston Celtics.

The defending champions of the National Basketball Association broke a two-game losing streak, beating Cincinnati 146-123 Friday night, and set up an Eastern Division showdown with Philadelphia tonight.

The triumph in the second game of a doubleheader pulled the Celtics back into a tie with the Warriors for the division lead. They play in Philadelphia tonight while Los Angeles is at St. Louis and Syracuse is at Detroit in a televised afternoon match.

Cincinnati played without Rookie flash Oscar Robertson who suffered a sprained ankle Thursday night against the Celtics.

Auerbach had erupted in anger when the Celtics lost to Syracuse here Wednesday. He told his players "You let Syracuse out-score you, out-rebound you, out-hustle you."

In the other half of Friday night's doubleheader, St. Louis ran away from Syracuse 131-118.

PITTSBURGH (AP)—A car killed Bude Veinovich, 72, of West Mifflin Friday night in nearby Duquesne.

Damage to the nation's forest by insects and disease is nine times the toll of another enemy—forest fire.

South Penn Loop Meeting Sunday

A meeting of South Penn Baseball League officials will be held Sunday afternoon at 2 o'clock at the American Legion Home, Baltimore St.

Important business will be transacted and all teams are requested to have representatives present.

FAIRFIELD HIGH LACES ST. JOE

Leading all the way, Fairfield High crushed St. Joseph's of Emmitsburg 60-29 at Fairfield Friday evening to even its cage record at 1-1.

Jack McAndrews' clan piled up an 18-4 lead in the opening period and the outcome was never in doubt from that point. At half time the score was 28-14.

Joe McCauslin enjoyed a big evening for Fairfield and collected 23 points. George Haines added an even dozen. St. Joseph's was led by Topper with 14.

The Fairfield girls opened their campaign on a sour note when they lost the preliminary to the St. Joseph's lassies 47-43. Yvonne Herring connected for 22 points for Fairfield while Mary Ann Myers hopped 25 for St. Joseph's.

Next Thursday the Fairfield boys open their Adams-Franklin League schedule with a game at Scotland. St. Joseph's will play at St. Joseph's.

BEARS CAN WIN

If the Packers, 49ers and Colts all go 1-1 for the two remaining games, the Chicago Bears (5-4-1) could take it all by beating the Browns at Cleveland Sunday and the Lions at Detroit next week.

The Lions (5-5), by defeating the Dallas Cowboys (0-10-1) at home, then the Bears, could force a four-way tie with the current leaders in the event of that three-way 1-1 split and a Bear fall-down. The Lions are 13-point favorites, the Bears 7-point underdogs.

A four-way Western tie would push the title game—now set for Philadelphia on Dec. 26—back to Jan. 8. The first alternate date is Jan. 1.

With the Philadelphia Eagles (9-1) already assured of the Eastern crown, the question is who will finish second, the New York Giants (5-3-2) or the Browns (6-3-1)?

The Eagles are two-point favorites to defeat the Pittsburgh Steelers (4-5-1) at Pittsburgh. The Eagles have won nine straight, including a 34-7 victory over the Steelers at Washington over the Redskins (1-7-2).

Stengel Undecided About Angels Job

GLENDALE, Calif. (AP)—"I haven't signed any contract and I haven't made up my mind," says Casey Stengel.

A newsman elicited this answer when he asked Casey point-blank Friday if he was going to take the job as field manager of the Los Angeles Angels.

TWO TOP CAGE TEAMS BEATEN FRIDAY NIGHT

By JACK CLARY
Associated Press Sports Writer

Cincinnati and Kansas, preseason choices to rank among college basketball's elite, have joined West Virginia, Kentucky, Utah and Utah State in the "defrocked department."

Seton Hall, an 8-point underdog, scored an 84-76 victory Friday night over Cincinnati, which this year must play without the graduated All-America Oscar Robertson.

St. John's, 3-0, like Seton Hall, easily handled Kansas, the defending Big Eight title, 66-54, with an all-around display of clutch playing and helped by the Jayhawks ineptness.

Two members of the defrocked, West Virginia and Utah, started on the road back. The Mountaineers came on fast in the final seven minutes to beat Wake Forest 80-73 while Utah took care of Baylor 83-69.

DUKE DOWNS STATE

Duke, playing the second game of the West Virginia-Wake Forest twinbill, beat Penn State 69-46. Georgia Tech's Roger Kaiser got 25 to help defeat Southern Methodist 67-64; Wyoming upset Oregon 62-47. Four men hit double figures as UCLA dumped Kansas State 83-73; Lafayette surprised Manhattan 64-59 in the third game of the Madison Square Garden tripleheader; Loyola of New Orleans won over Alabama 70-58; Southern California used superior height and speed to defeat NYU 86-68 at Los Angeles. The Trojans, leading by two at halftime, broke the game open with a rally early in the second half.

In other games, Pete Campbell scored 31 points and led Princeton to an 83-72 win over Navy; Lee Sager's 35 points paced an 84-80 Army victory over Pitt; Penn defeated Rutgers 60-51; Boston College broke its all-time scoring mark in beating Connecticut, 110-95; Virginia Tech won over Davidson, 105-59; William & Mary easily beat Pembroke 92-72; Bob Nordmann's 21 points led St. Louis to an 80-53 win over Creighton; De Paul conquered North Dakota 83-62; Oklahoma City U. knocked off Hardin Simmons 82-59.

Littlestown High fell victim to the Kennard-Dale dribblers for the second straight time when they bowed 48-37 at Fawn Grove Friday evening.

The Thunderbolts took an 8-6 lead in the first period but the Rams forged ahead 21-20 at half time after a nip and tuck battle. A big third period in which the Rams held the Bolts to but four points while tabbing 11 proved fatal to Coach Jack Bream's squad.

Poor foul shooting proved costly to Littlestown who converted only seven of 18 tries while Kennard-Dale hit on 16 of 21.

Bob Benner collected 11 tallies to lead Littlestown while Paul Godfrey rimmed 18 for the winners.

The Kennard-Dale reserves also won the preliminary 60-31.

Next Friday Littlestown will host Bermudian Springs in the opening Adams-Franklin League game.

Penn State Squad Sees Oregon Films

UNIVERSITY PARK, Pa. (AP)—Now that the Penn State Football team has had its first look at its Liberty Bowl opponent, Coach Rip Engle scheduled a scrimmage for the squad today.

The Nittany Lions looked at the movies of the Oregon team Friday in a two-hour "skull" session. They did not work outdoors.

The coaching staff went over the offensive and defensive points of the Ducks. They also put the Lions through a blackboard drill.

Oregon and State meet in Philadelphia next Saturday.

Virginia Coach Will Lose His Job

CHARLOTTESVILLE, Va. (AP)—Dick Voris, denied the "full support" he said he had to have, awaited formal dismissal as Virginia football coach today after three long years of defeat.

Only official action of the university Board of Visitors was needed to insure the departure of the former Army assistant whose Virginia teams have lost 28 consecutive games.

Voris himself cleared the way for his dismissal Friday when he told the board's athletic committee it should either give him "full support" or buy up the remaining year of his three-year contract. The vote of confidence was not forthcoming.

LOS ANGELES IS EYING TITLE

By THE ASSOCIATED PRESS
Los Angeles shoots for the Western Division title and Paul Lowe for the American Football League's ground-gaining crown today when the Chargers meet the visiting Denver Broncos.

With a 8-4 record and only two games to play, the Chargers needed only a victory or a tie over the Broncos (4-7-1) to gain the first berth in the initial AFL title game Jan. 1.

But Lowe's task was a little tougher. Starting late, the Chargers' back has passed Houston's Dave Smith, the early season leader, but still must catch Abner Haynes of Dallas.

Through 12 games, Haynes had 780 yards, Lowe 686 and Smith 583. Smith leads Houston (8-4) against Buffalo (5-6) Sunday when the Oilers are expected to clinch the Eastern title before home fans.

The Oilers need only a victory or a tie—and not even that if the New York Titans (6-6) fail to defeat the Oakland Raiders (5-7) at San Francisco Sunday.

If Los Angeles misses today, it can back in via a tie or loss by the Dallas Texans (6-6). Dallas is home to the Boston Patriots (5-7).

In the three-day Christmas holiday last year, 42 persons died as a result of fire.

PERET DEFENDS TITLE TONIGHT

NEW YORK (AP)—Benny (Kid) Peret, the boxer, puts his world welterweight title on the line for the first time tonight when he takes on Federico Thompson, the slugger, in a 15-round bout at Madison Square Garden.

This second clash between the fancy Dan from Cuba and the hard-punching Argentine is expected to draw some 7,000. It'll be nationally televised (ABC) starting at 10 p.m. EST.

The first time they met, last March 25 at the Garden, it was a 12-round draw. Peret then hadn't won the 147-pound crown.

It's a pick 'em affair tonight with Peret's age (23) and fancy boxing expected to offset the punching of the 33-year-old Thompson.

MACKAY BEATS ITALIAN TO UP DAVIS CUP LEAD

By WILL GRIMSLEY
Associated Press Sports Writer

PERTH, Australia (AP)—Fighting staggering odds, stout-hearted Barry McKay of Dayton, Ohio, won a five-set victory over Italy's Nicola Pietrangeli today and sent the United States into an imposing 2-0 lead in the Davis Cup interzone tennis finals.

Pietrangeli, who saw eight match points go up in smoke in a heart-breaking two-day marathon, left the court in tears after McKay had hammered out an 8-6, 3-6, 8-10, 8-6, 11-triumph.

FELT SORRY TOO

The U.S. Davis Cup captain, David Freed, said he felt so sorry for the beaten Italian star that "I could not stand up and cheer. I wanted to cry with him."

The triumph which followed Earl Buchholz's victory over Orlando Sirola in the opening singles Friday puts the Americans within one point of clinching the spot in the challenge round. They could grab this point in the doubles which were postponed today because of the length of the McKay-Pietrangeli match. Pietrangeli and Sirola will be favored over the St. Louis schoolboy pair of Buchholz and Chuck McKinley.

PLAY SINGLE MONDAY

The final singles now postponed until Monday sends Buchholz against Pietrangeli in the first match and McKay against Sirola in the final.

The winner of the best of the five match series qualifies to meet Australia in the challenge round starting Dec. 26.

McKay fought off five match points Friday in a weather-plagued match which saw Pietrangeli win two of the first three sets.

McKay's victory was a weather-plagued match which saw Pietrangeli win two of the first three sets.

DAZZLING SHOWS

When the players resumed play today McKay was only two games from defeat. The 6-foot-4 American put on a dazzling show of power and net-rushing finesse to win the fourth set in seven minutes but he fell behind 2-5 in the fifth.

The cat-like Pietrangeli was moving toward what appeared certain triumph until the ninth game when two brilliant backhand returns and a net cord shot which dribbled over the tape gave the American a vital return break and put him back in the game.

It was in this game that Pietrangeli had his first of three match points of the day—and his sixth of the match—but he hit a volley into the net.

LUCKY BREAK

In the 18th game, leading 8-7 and 40-15, Pietrangeli had his chance again. But McKay hit a crisp volley behind the Italian to save one point and on the other Pietrangeli slashed a smoking backhand which hit the top of the net cord with a resound snap. The ball might easily have rolled over and the match would have ended there.

In the 24th game McKay got to 40 love with three big services. Pietrangeli dramatically won the next two points but at 40-30 McKay cut loose with a blast that had all his muscle behind it. The ball smashed the line for a clean ace and that was the end of a long dramatic battle.

GIL McDOUGALD WILL RETIRE

NEW YORK (AP)—Gil McDougald, once called by Casey Stengel "the best second baseman, the best third baseman and the best shortstop in the American League," is through with baseball after 10 years with the New York Yankees.

The 33-year-old infielder, one of the most versatile players in baseball history, said Friday he is retiring to devote more time to his private business—building maintenance—and his family, which consists of his wife and four children ranging in age from 8 to 12.

The California native steps out with a lifetime batting average of .279. Last season, used chiefly as a utility infielder, McDougald hit .259 in 119 games.

McDougald emphasized that being included on the New York list of 15 players made available to the two new American League clubs had nothing to do with his decision. He said he made up his mind during the World Series.

EX-CHAMP IS SUMMONED TO BOXING PROBE

By WHITNEY SHOEMAKER
WASHINGTON (AP)—Senate boxing investigators today refused to name a former world champion who has been subpoenaed to testify. They said they feared advance exposure might place him in danger.

The unidentified ex-champ has been ordered to appear on Monday before the Senate subcommittee that hopes to rid the sport of racketeers. Also on the Monday witness list is heavyweight contender Charles (Sonny) Liston.

Liston, rated the No. 1 challenger for Floyd Patterson's title, is handled under cover by hoodlums and yields a share of his purses to them, the subcommittee was told Friday.

KEEPS NAME SECRET

John G. Bonomi, a fight-probing assistant New York district attorney who is directing the Senate investigation, masked the identity of the former champion who faces questioning. He wouldn't say when the fighter reigned nor over which division.

Lt. Joseph Kuda of the St. Louis police force said Friday he had evidence that imprisoned mobster Frankie Carbo was marked in for 52 per cent of the manager's cut of Liston's fight purses. The balance of that cut, Kuda said, was divided in 12 per cent shares among Frank (Blinky) Palermo, Philadelphia racket figure; John J. Vitale, St. Louis ex-convict, and two others whose names he could not pin down.

REFUSES TO ANSWER

Vitale refused to answer questions, pleading the Fifth Amendment against possible self-incrimination. Frank Mitchell, publisher of a St. Louis weekly used the same grounds for declining to reply when Bonomi asked if he had acted as a front for Vitale while listed as Liston's manager before 1958.

Liston, the 27-year-old challenger, has served time for hold-ups and assaulting a policeman in St. Louis. In the ring, he has lost only one bout and knocked out 20 of his 30 opponents.

Carbo is serving a two-year sentence for undercover match-making and managing.

Lean Hogs Gain Far More Rapidly And Efficiently Than Fat Ones Says Agent

By FRANK S. ZETTEL
Adams County Farm Agent

Recent USDA tests reveal that lean hogs can gain more rapidly and efficiently than fat ones. This information proves that swine growers can produce leaner carcasses without sacrificing feedlot performance. Many hog producers have wondered whether this was possible.

FRANK S. ZETTEL

In the tests, USDA workers started with one group of Duroc hogs. When these hogs weighed about 175 pounds, their backfat thickness averaged 1 1/2 inches. From these hogs, workers selected a line noted for high backfat thickness. They also selected another line noted for low backfat. Then they raised four generations of the hogs. By the fourth generation, the lean hogs, with a low backfat thickness of 1.25 inches weighed 35 pounds at weaning. They gained 1.58 pounds daily until reaching 175 pounds.

The other hogs, with a high backfat thickness of 1.8 inches weighed only 30 pounds at weaning. And they gained 1.47 pounds daily until reaching 175 pounds. There's the evidence in favor of meat type hogs—higher weaning weights, higher daily gains.

TIME TO MULCH

Mulch strawberries in early to mid-December. Apply the mulch after a few hard freezes. Plants should be completely dormant before mulch is applied.

A light covering of mulch protects the plants against severe winter temperatures and helps prevent "heaving" of plants. Alternate freezing and thawing in winter and early spring tends to force shallow-rooted plants out of the soil where they die. Mulch reduces loss by helping to keep the soil temperature nearer a uniform level. Mulching may also delay spring blossoming enough to reduce danger from frost damage.

Two or three inches of clean straw makes a good mulch. If the entire bed is mulched, next spring's weed and grass growth is reduced. If you haven't a large supply of straw mulch just the plant row.

Sawdust, crushed corn cobs and peat moss also are suitable mulches. Apply these materials to a depth of two inches, except over the crown of the plant. Too heavy mulch on the plant crown may reduce or even prevent growth next spring, so sawdust, cobs or peat on the crown should not exceed one inch.

Leaves do not make a good mulch because they tend to mat down and smother plants.

URGE ECONOMY IN FEED

Winter feeding of the beef herd is built around the roughage supply. Economy is the principal idea in planning the feeding program for the breeding herd. "Keep expense of wintering cattle no greater than the minimum necessary to insure a reasonable degree of comfort and to keep them vigorous and healthy, for today the production of beef calves is conducted on a narrow margin of profit."

If the herd is of average size, it will pay to keep dry cows separate from those suckling calves. Cows nursing calves require half again as much feed as dry cows. For this reason, calves dropped in the spring are usually raised much cheaper than calves dropped in fall.

A dry beef cow, in average flesh, needs about 2 per cent of her live weight in dry roughage per day. Thus, a cow weighing 1,000 pounds should get about 20 pounds of dry roughage daily. If the roughage is of average quality it should meet her daily feed requirements. Three or four pounds of silage, depending upon moisture content, will equal one pound of hay in feeding value.

protein for a dry cow. Unless the supply of good hay is plentiful, some filler such as corn stover, oat straw, or some other low-grade roughage can be fed free choice to satisfy the appetite and meet the energy requirements. Feed cows nursing calves 4 to 6 pounds of grain daily. If an abundant supply of corn or grass silage is available, grain feeding nursing cows is seldom necessary.

Fresh water and salt are just as important during the winter as any other season of the year. Feed heifer calves and yearlings separate from the brood cows. While dry cows can be wintered on roughage alone, feed only quality roughage and 3 or 4 pounds of grain daily to insure good growth of heifers raised for replacements.

U. S. BOOSTS GOLD SUPPLY

WASHINGTON (AP) — The United States has increased its gold supply for the first time in several months with a \$300 million bullion purchase from the International Monetary Fund.

The fund said Thursday it sold the gold so it could get dollars to invest in short term treasury securities. It said it wanted to convert some of its gold reserves into interest-earning treasury IOU's.

The timing of the transaction was a happy one for the United States when the American gold supply was at its lowest level in more than 20 years.

Foreign nations have bought about \$1.4 billion of U.S. gold since the end of June. This has caused some worry that a run on gold might develop.

Foreign purchases had cut the U.S. gold supply to \$17,882,000,000 as of last Monday. The new purchase pushed the total American supply back above \$18,177,000,000.

"DOCTORED" QUARTERS ARE CIRCULATED

By FRANK CORMIER

WASHINGTON (AP) — Strange red-and-silver quarters featuring George Washington dressed as a Roman Catholic cardinal are being widely circulated in some parts of the country—and there's no law against it.

The coins are known as "Kennedy quarters" and represent an elaborate post election prank. They are named, of course, for Sen. John F. Kennedy who on Jan. 20 will become the first Roman Catholic to serve as president.

Mint officials said today the coins are standard 25-cent pieces doctored to disguise Washington as a prelate.

The doctoring is done in any of several ways. Some of the coins are painted with red enamel and some are dressed up with pieces of red plastic tape in appropriate shape.

HAS RED SKULL CAP

On the "heads" side, Washington's powdered wig is covered by a red skull cap called a zucchetto (pronounced zoo-ketto). These are worn by cardinals and stem from the days when all clerics had tonsures, or shaved heads. Washington's shoulders are covered with a red cassock, a clerical garment which has an ankle-length skirt.

The mint has no evidence that "Kennedy quarters" are being mass produced by any particular group or organization. However, officials are fearful the gag might sweep the country and botch up the supply of quarters.

Leland Howard, assistant director of the Bureau of the Mint, said Treasury lawyers can find no federal law against this type of coin trickery.

While it may not be against the law to dress up George Washington, Howard said many banks may refuse to handle the doctored quarters.

He said banks might also withdraw the quarters from circulation as they appear, then turn them in to the government to be recoined. He said this could cost the mint a lot of money and trouble.

It costs about \$2.25 to melt down and recoin 1,000 quarters, Howard reported. He said it would be cheaper to do this than to try scraping paint off quarters altered by that method.

Gets Sentence For Copper Wire Theft

LANCASTER, Pa. (AP) — Richard L. Ritter, 38, of Manheim has been sentenced to 1½ to 3 years in jail as the leader of a group which stole \$16,323 worth of copper wire from the Pennsylvania Railroad.

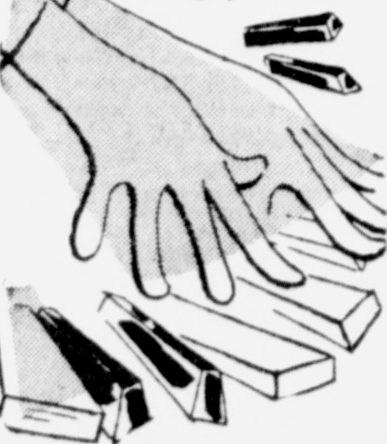

Ritter and two other men admitted they climbed poles and cut down signal lines to get the wire. All pleaded guilty Friday before Judge William G. Johnstone Jr. of Lancaster County Court.

Robert L. Joseph, 35, of Lewisburg, and Richard D. Bickel, 30, of Wilmington, Del., received suspended sentences. Detainers have been filed against the three by Huntingdon County and the state of Maryland where some of the wire was stolen.

Many years ago the people of England believed mistletoe was sacred.

MISTAKES: According to Johnny Mathis' manager, Helen Noga, Mathis learns from mistakes, his own as well as others'. Mrs. Noga explains that during Mathis' current theater tour the human element is always present. "Sometimes the lighting man errs and lights one of Johnny's songs the wrong way; sometimes a microphone goes dead; sometimes a curtain doesn't close properly—anything can happen during a 'live' performance. As a result, Johnny has had to learn how to ad-lib his way out of difficult situations. A few years ago, Johnny would get visibly upset if a microphone suddenly went dead, or the wrong lighting was used. Today he takes it all in stride and is so adept in handling such situations that his audiences have been loud and long in their praises of his showmanship."

KAYE AUDITIONS FOR CHOIR:

Bandleader Sammy Kaye has auditioned over 200 singers in the last month in order to find 30 performers for the vocal choir which will supplement his orches-

tra during his 1961-62 concert tour. Kaye estimates that he will audition close to 1,000 singers before getting ones he is looking for.

NEW "ALLENISM": There's a new Mel Allen-ism that is fast catching on with sports fans. This year, baseball and football fans have been shouting from the stands, "Hang In There!" in addition to other catch phrases popularized by Mel, "How about that?" and "Three and two and what'll he do?"

POLLY BERGEN GETS LET-

TERS: Polly Bergen's fan mail is different. A nationwide survey some time ago revealed that Polly appeals to women in her audience as much as she does to men. Thus, about half her mail comes from women. The most frequent question she's asked is, "Who does your hair?" (The answer is Elizabeth Arden, although Ernie Adler does Polly's hair for TV performances.) She also gets requests for fan photos, discarded clothes, questions about her family life, and praise for (as well as occasional criticism of) her performances. She almost never gets obscene mail. But when she does, she turns such letters over to the postal authorities.

CLOSE FRIENDS CO-HEAD-

LINE: When Phil Ford and Mimi Hines co-headline with Tony Bennett at New York's Copacabana starting January 5, it will be in the nature of a reunion of close friends. Ever since they performed together in a Chicago night club a year ago, Ford and Hines and Tony Bennett have been a mutual admiration society. In fact, the networks and advertising agencies are considering a proposal by the managers of Ford and Hines and Tony Bennett to co-star them in a TV "special" based on an idea they whipped up while working together in Chicago.

Can Career And Marriage Mix?
Peter Lind Hayes, Mary Healy Say Yes

By CHARLES J. LEAVY

When we met Peter Lind Hayes for a breakfast interview at the Mon Plaisir, we were intrigued by our first reaction. He has that twinkled-eyed smile that wins you over when you first look at him. Of course, Peter has plenty to smile at these days. He is doing a successful television series with his beautiful career and marriage partner, Mary Healy ("Peter Loves Mary" ABC-TV Wednesdays 10-10:30 p.m.).

Talking about the series Peter

joys we experienced would prove so fruitful. We're happy that the series has proved so successful, but we'll be even happier if as a result, we can show that a show business career doesn't have to rule out a solid happy married life."

If ever a person were born to be an actor, Peter Lind Hayes is an outstanding example. His father was an amateur singer and his mother, Grace Lind, was well known as a vaudeville headliner under the name of Grace Hayes.

ing Iona Irish Christian Brothers' School in New Rochelle. When word came to the superior of the school of Peter's extra-curricular activities, it was decided he would probably make a much better script writer than a student and was sent forth into the world with the Brothers' blessings. When we spoke about the Christian Brothers' incident, a noticeable change came over Peter. The twinkle was gone and a serious, almost stern, expression took over. "Mother and I were not pleased

Peter Lind Hayes, Sidney Miller (Director), and Mary Healy "Peter Loves Mary"

pointed out that writing the episodes was a particularly easy task because many of the incidents parallel his own life with Mary. Since Mary and Peter were both career-minded show people at the time they were married 20 years ago, the odds were tremendously against their union lasting. What they had in their favor, however, was a strong desire to lead a normal domestic life and, at the same time, continue their careers. Their success in this endeavor is obvious. It wasn't easy as Peter readily admits. However, the struggles and difficulties to maintain a happy home life and marriage despite their careers resulted in some of the most frantic, heartwarming and humorous real life drama imaginable.

"We never realized that the ups and downs, the difficulties and

He was only nine years old when during the summer he worked in vaudeville skits with his mother.

At 10, Peter had become a full-fledged actor, appearing in stage productions at the Alcazar Theater in San Francisco. Ten years, later, he was recognized as one of the foremost mimics in show business.

At 16, he appeared with his mother in a skit, which he had written, at New York's famous Palace Theater.

Today, approximately 30 years later, after a score of successful motion picture credits, Peter has made it in television.

Although his career in show business has been mostly on the "plus" side, it has not been without some heartbreaks. At the time he wrote the skit for the vaudeville act in which he appeared with his mother, he was attend-

with my having to leave school, but I suppose that grease paint was in our veins. In any event, it worked out, and thank God, I don't believe I'll be faced with the same problem with my own children. My 11-year old son, Michael, hasn't indicated any desire for an acting career whatsoever. After the pilot of "Peter Loves Mary" was presented, we asked Michael what he thought of it, and to our amazement, he was not impressed in the least. He is the fixit man in the house — loves to take things apart and surprisingly enough he can usually put them back together again. Our daughter, Cathy, who is 9 now, has us wondering. She has proved herself adept at her dancing lessons. Perhaps some of the grease paint will rub off on her."

DISCIPLINE IN HOME

On the question of discipline in the home Peter was particularly emphatic. He made it absolutely clear that he doesn't hesitate using the "rod" when the situation requires it. He mentioned an incident that took place in his home in Hollywood. A Hollywood couple was visiting them accompanied by their young son. Complete believers in the "self expression" school of raising children, they allowed their child to run wild throughout the house all day. In the early evening, Peter was surprised to find the house was suddenly quiet and asked his guests what happened to their son. To his amazement, they said they gave him a half of a sleeping pill — the only affective way they knew to make him to bed.

This incident so shocked Peter that he was determined never to allow his children the lack of discipline.

"I believe in being a father to my children and not a playmate," Peter said emphatically.

FOOD FOR THOUGHT
By Marshall Tuckey

Chicago's Stockyard Inn is one of the best-known steak houses. It was built to serve cattlemen who brought their herds to the world's biggest stockyards.
The Inn is a combination of the West's and English architecture. Near the center of the room is the "Steak Throne," where beautiful steaks repose on a bed of ice. This is flanked by braziers that hold branding irons so you can choose the steak you want, brand it, and your brand is still legible when the steak is served sizzling hot.
We are serving a special roast goose dinner Saturday and Sunday.
